

Goethe's Visit to Carlsbad.

There is no doubt that the life of the great poet was greatly prolonged by drinking the waters of the Sprudel Spring. In our day we have the Sprudel Spring brought to us in the form of Salt, which is obtained by evaporation from the waters of Carlsbad.

The CARLSBAD SPRUDEL SALT (powder form) is in no sense a mere purgative, but is an alterative and eliminative remedy which dissolves tenacious bile, allays irritation and removes ob-struction by aiding nature. It acts that within twenty years Pottsville will be the foremost city in the entire ansoothingly and without pain. Be. | thracite region." ware of imitations. The genuine article has the signature of EIS-NER & MEFDELSON CO., sole

By an Explosion of Gas in the Twin Shaft.

Special to the Scrunton Tribune. Pirriston, May 10.-The Twin shaft of the Newton Coal company was the scene of a serious accident about 10 o'clock this morning, caused by the explosion of accumulated mine gas Three Lithunian miners employed at work in the mine at the time were badly burned. Their names are as fol-

Joseph Mikalawib, single, aged 24; William Smolausk, married, aged 30; George Webber, single, aged 19. The injured men were conveyed to the hospital where they were given the neccessary treatment.

Their injuries while not serious are very painful. The burned parts are their faces, hands and arms.

BAD DRAINAGE causes much sickness. and bad blood and improper action of the liver and kidneys is bad drainage to the human system, which Burdock Blood But-

TOWN NOTES.

An Interesting Batch of Local Happenings Briefly Narrated.

Special to the Scranton Tribune noon. The accident caused much consternation among the passengers but fortunately no one was hurt.

At a meeting of the directors of the Miners bank held yesterday afternoon bank building to be located, as heretofore stated, at the corner of Broad and Main streets. As the plans were not in detail the architects, who are from New York, were ordered to make them more definite and also to prepare specfications. The building is to be a four story building of brick and terra cetta 40 feet front by 122 feet in depth. banking room will be 34 by 50 in size, back of which will be the vault. Next, running east, will be the directors' The room back of that again will be used as an entrance of Broad street leading to the elevator. At the rear of this room will be a private office for the bank officers. The remaining 16 feet on the front will be made into a store room. The upper stories are to be used for office pur-poses and will be replate with the lotest modern improvements.

Ex-Treasurer George L. House is very indignant over the report published in several papers to the effect that he intended bringing suit against the borough for commission on certain

they administered spiritual comfort to all the inmates of the Catholie faith. Mrs. P. F. Stekes and children, of Scienton, visited her mother, Mrs. Ellen Holland, on Butler street today. Miss Ella Jacobs has accepted a posi-

tion in McDougal's book store Mrs. Joseph Fear and daughter, of Dunmore, are spending a few days with her parents, Mr. and Mrs. P. H. Moon, on Butler street.

An Old but Favorite Dessert.

Lemon snow is deserving of its widespread popularity, being an ornamental as well as appetizing dish: Soak half a box of gelatin in a cupful of cold water. Add 2 cupfuls of boiling water and the grated rind and juice of a large lemon, or 2 small ones and a cupful of sugar. Dissolve and strain. When cool, but not stiff, add the whites of 3 eggs beaten to a stiff froth and beat the whole until it "sets" in a firm, light snow. Serve with whipped cream or a custard made with the yolks of the eggs and a pint of milk, sweetened and flavored with lemon.

Bisque Soup For Luncheon. A delicate bisque sonp served in cups is a welcome change from the customary bouillon at luncheon. The nicest accompaniments are oblong slices of bread cut from a small loaf, baked for a few seconds in the oven to make them perfeetly crisp and of a light golden brown.

If you desire the man to repeat his call, you should so express yourself when be is leaving.

GENERAL NEWS OF INDUSTRIES.

President Wilbur, of the Lehigh Valley Railroad company, in denying the rumor that the Weatherly and Hazleton shops would be removed, said: "The Lehigh Valley has not discriminated against any town and will not. It has been the policy of the company to help towns and to scatter its work as against the ordinary railroad policy of concentration. The majority of other roads build up one town at the expense of the line. That has not been done in the case of the Lehigh Valley. As to how these rumors of interference originate I am at a loss to know. The Lehigh Valley has been loyal to its people. Its plans are laid so as to make the road as great as any in America and to give it a more important position in the anthracite President Wilbur, of the Lehigh Valley more important position in the anthracite trade. The gradual consummation of these plans means increased prosperity for that part of the state known as the Lehigh Valley."

which improvements have been either started or projected, are men from the Wyoming region who are thoroughly familiar with the coal business and who know that in order to supply the market the coal in this valley must be opened at an early day. They are shrewd, intelligent business men who fully understand the situation, and who know their investments here will bring than headsome. vestments here will bring them handsome returns in the future. The success of

The statement of shipments of anthra-cite coal (approximated) for the week ended May 5 shows a freer movement from the Lehigh and Schuykill regions, ship-ments from the former having increased 18,928 tons, and from the latter 13,382 tons. There was a divergence between 16,082 tons.

a	Regions.	May 5. 1994. Tona.	May 6, 1863, Tons,	Dif.

to date 10,702.075, 13,934,914 Dec 0.002,959 It is rumored that the Lehigh Valley is to purchase all the new engines received by Mr. Coxe lately and will have them put

on the Wyoming division. It is claimed by the Valley's officials that the engines are too heavy to run with safety over the bridges between Drifton and Perth Amboy and they find it will be necessary to strengthen every bridge mong this route. If this proves to be true the D. S. & S. company will purchase engines some what ighter than the others.

An interesting experiment with on as An interesting experiment with on as fact for locomotives is to be made by the Chicago, Eurlington and Quincy railroad, in anticipation of the continuance of the coal miners' strike. A number of locomotives are being provided with apparatus for burning oil. The management in-tends to make the first trial trip to the Mississippi within a short time. If the run proves successful all the locomotives in the company's service will be sent to the shop to be supplied with burners.

The Shirt Walsts of 1894.

The shirt waist of 1894 surely deserves its name, being an exact reproduction of a man's shirt, with the exception that it is shirred in at the waist and worn with a belt. Even the cuff has borrowed the true shirt finish, for it is set on the sleeve with a staying piece uppermost, opening on the top exactly like a shirt cuff. Then there are the shield shaped bosom and the high straight col-lar, with points which turn slightly, all of which is very mannish. The only saving grace to this costume is the large, full sleeves, which at least give it a slight touch of femininity. The bosom fronts are made in white and delicate shades of blue, pink, gray and heliotrope, and also hairline stripes of white. Linen in pale buff and tan is often used, and black and white striped and dotted ma-

terial, chambray, percale and cheviot. The "shield frill" waist is more truly feminine, with a turn down collar all around, and with cuffs which lack the patrons. genuine "shirt" effect. These are most becoming to slender figures and are much easier kept in good condition than the designs which demand polished stiffness. Then there is still another variety with fine tucks at each side and down the front, with a roll collar quite different from the others. Generally the backs of these waists are made with the yoke and fullness gathered into the belt, which seems to be most satisfactory. Tucks and gauged backs are also worn, but the yoke is the most popular.

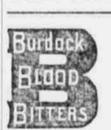

agents, New York, on every bottle. Pamphlets mailed free upon application. Price per bottle \$1.00; large size \$1.50.

ments from the former and from the latter 13,382 tons. There was a decrease, however, of 50,402 tons from the Wyoming region, so that the net result for the week was a decrease of 34,172 tons, making the total decrease for the year to date \$,222,239 tons, The statement in full is appended:

| Mark Direction of the control of the part of the mature of lace, which will be used alike on dresses of all kinds of material. A pretty way of arranging statement in full is appended:

| Mark Direction of the control of the mature of lace, which will be used alike on dresses of all kinds of material. A pretty way of arranging lace on a waist is to cross it in folds. Embroideries and Trimmings. through a rhinestone buckle and allowing them to fall below or fasten with the buckle. Wide black moire ribbon will be largely used for dress trimmings also for the bows on hats and for immense bows around the neck.

Recipe For Cinnamon Bread. Take flour as for making biscuit, add a cupful of yeast sponge, two well benten eggs, a quart of lukewarm water and a cupful of sugar. Salt and knead same as light dough and set it to rise. When it is ready to make out, roll it into thin cakes, place in well buttered pans and let it rise again. Bake to a light brown on top, and when done spread a cream over it made as follows: White of an egg beaten to stiff froth, add teaspoonful of ground cinnamon and a tablespoonful granulated sugar. When this is done, put the bread again in the even to dry the cream. This is delicious.
